

# DOE Testing Workflow

## 1. Consent for Testing

- Students/Staff register for weekly testing on alohaclear.com site or via paper consent forms
- Students/Staff that pre-register by 7:00 p.m. the day before testing will be tested that day
- Students/Staff that have paper consent forms will submit the forms to the testing team and will be tested the following week

## 2. Data Entry/Testing Registration

- Students/Staff will meet at agreed testing area at designated time where they will be checked in

## 3. Rapid Antigen Test Specimen Collection

- Students/Staff will be instructed to self-swab, NKFH Team will observe and provide instructions
- Swab will be transferred to on-site test processing area

## 4. Rapid Antigen Specimen Processing

- NKFH Team processes tests in the designated school area. Results read in 10-15 minutes
  - **Negative Result:** No further action required
  - **Positive Result:** Principal notified, and PCR confirmatory test given
- Enrollees registered online will receive test results shortly thereafter. Enrollees without an online account will be issued a paper copy of test results to take home

## 5. Confirmatory PCR Test (For Positive Antigen Test Only)

- Confirmatory PCR Test given to positive student/staff at on-site test area
- Student /Staff isolate while tests processes and results are read in 30-45 minutes
  - **Negative Result:** Student may return to class
  - **Positive Result:** Principal notified, and DOE protocol utilized
- Enrollees registered online will receive test results shortly thereafter. Enrollees without an online account will be issued a paper copy of test results to take home
